PI-HOLE Setup

https://discourse.pi-hole.net/t/how-do-i-

configure-my-devices-to-use-pi-hole-as-their-

dns-server/245

SEREN APP / KODI Setup

- Add https://nixgates.github.io/packages/ to your Kodi File Manager Sources, call it something like "Nix's Repo"

- Go to Add-on browser and Install from Zip File, go to "Nix's Repo", and install "nixgates.repository.zip "

- After it finishes installing, go to Install from repository>Nixgates Repo>Video Add-on's>and install Seren

- Once you get the notification that Seren installed successfully go back to the home screen

- Open Seren, go to tools, Open Settings Menu

- Go to Accounts and authenticate Trakt and your debrid providers: PM, RD, and/or AllDebrid

- Go to Providers, Manage Provider Packages, and Install Package.

- Type in http://bit.ly/a4kScrapers

- A prompt will come up asking if you'd like to install the scrapers, Press "Install", then Press Okay after successful install

- Adjust your setting how you like with filters and such and you're ready to go! :)
